

I would like to inform you of the current Indiana State Privacy law regarding telephone soliciting. I have been extremely please with this state law and it has made a great difference in the number of calls that I was receiving on a nightly bases. I would receive 8 - 10 nightly calls. I even have purchased the distinctive ring from the telephone company which would ring differently when family and friends would call. This is a unlisted ring patern so by not answering the primary number, I could screen the unwanted calls. This new state law has eliminated the need for this second number. I feel to tamper with the Indiana state law by modifying it with the federal law is a great injustice to the citizens of the state of Indiana. If you feel to change my state's law by adopting a lesser federal law, I would apprecite getting the address where I should send my second ring phone bill so the federal government can pay this unwanted bill. These calls are an invasion of my privacy which Indiana has sought to protect.

Professionally,  
Brandon Adomatis
